

Why does the Healthcare Navigator need to ask what's wrong with me?

It is not a case of the Healthcare Navigators being nose-y!

Healthcare Navigators are trained members of the practice team who have been requested by doctors to ask certain questions in order to ensure that you receive:

- the most appropriate care
- from the most appropriate person
- at the most appropriate time.

Healthcare Navigators like all members of the team, are bound by confidentiality rules:

- Any information given by you is strictly confidential
- The practice would take any breach of confidentiality very seriously and will deal with it accordingly
- If you do not wish to disclose your information, Healthcare Navigators will respect your decision.

Thank you for your support
