

**FOI Request 2175**  
**NHS Redditch & Bromsgrove CCG**

Please provide information on the vendor used, licence expiry and licence cost for each of the following IT security areas within the organisation:

**Please note that the CCG outsources its Operational IT service to Worcester Health ITC Service (WHITCS) and that individual technologies are rarely mandated by the CCG and specific technologies/costs and licence terms are generally a matter for WHICTS with the CCG merely buying an overall service.**

1. Desktop anti-virus

**The machines provided for CCG staff are covered by Sophos Anti-Virus. However this is part of a wider SLA with WHITCS and details such as cost/expiry (or specific vendor or implementation details) are not listed as separate elements.**

2. Protection of Microsoft Exchange environment

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

3. Email gateway

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

4. Web gateway

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

5. Mobile device management

**The CCG does not currently receive a mobile device management service. Were the CCG to require such a service it is available from its Operational IT Service provider and would be added via a change control to the WHITCS SLA.**

6. Hard disk [encryption?]

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

## 7. Removable media encryption

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

## 8. Firewall

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

## 9. VPN

**This is incorporated into the overall SLA with WHITCS however the CCG does not mandate a specific technology and the provision of these services are not broken down into a specific cost element within the financial agreement.**

Please also provide the total number of computers within the organisation.

**There are currently 25 computers in use.**
